Continuation of Substance of Interview including description of the general nature of what was discussed:

February 2, 2010;

Applicant was advised that after careful review the present amendments to claim 1, dated November 9, 2009, fail to overcome the rejection of claims in the official Action dated May 8, 2009. Applicant was however advised that incorporation of additional structure and/or operational details regarding the glass stopping arrangement (see paragraphs 0029-0030) would read over the prior art of record and may place the application in condition for allowance. Applicant was directed to present proposed claim language for further discussion by February 5, 2010.

February 15, 2010:

Applicant was unable to timely present proposed amendments. A final rejection was issued in response to Applicants reply dated November 9, 2009, however Applicant was invited to contact the Examiner to further discuss the potentially allowable subject material as deemed necessary by Applicant.
